Response to Amendment

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/12/04 has been entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Any objections or rejections made in a previous Office Action that are not herein reinstated have been withdrawn.
4. Claims 30-34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Upon running a sequence search and contacting Applicant's representative, the Examiner has discovered that SEQ ID NO:4 as currently recited and pending in the instant method claims is different from the SEQ ID NO:4 originally filed with the Application. This difference is present in both the currently pending paper copy and the CRF of the instant Application. Because this

Art Unit: 1647

sequence was not disclosed in the instant Application as originally filed, this is a new matter rejection.

5. The Examiner suggests to Applicant's representative to submit a new paper copy and CRF for this Application restoring SEQ ID NO:4 to the sequence as originally filed, and the Examiner will perform a new search on this sequence. SEQ ID NO:4 in its correct form has not been previously searched in the instant Application, as SEQ ID NO:4 was amended for the first time into the instant claims with Applicant's representative's last response.

6. No claim is allowed.

7. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Technical Center 1600 general number which is (571) 272-1600.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gucker whose telephone number is (571) 272-0883. The examiner can normally be reached on Monday to Friday from 0930 to 1800. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brenda Brumback, can be reached at (571) 272-0961. The fax phone number for this Group is currently (703) 872-9306.
